

Cemetery Trustees

Town of Dublin

Meeting Minutes

November 6, 2023

In attendance were Loring Catlin, Brian Barden, Hank Campbell and Kiki Sangermano.

Discussions regarding removing the trees we have quotes on. There is possibly a 5th tree near the pine tree with the woodpecker holes that may need to come down. It also should be noted that the quotes were made in the summer and fall of 2023 but trees won't come down until 2024 so the prices may be higher. The quotes are \$9,000, \$5,500 and \$4,900.

Loring moved that we request \$10,000 in the warrant article to allow for the 5th tree, any increase in quotes that were guaranteed for 30 days, and any winter tree damage. Brian seconded. Vote was unanimous.

Hank sent us all copies of a quote from Kaufhold to repair a marble monument (\$150) and put a new footing and reset an obelisk (\$1725) for a total of \$1875. These repairs should be made before winter because the obelisk is massive, multi-pieced, in a location where it easily can attract the attention of passers-by. It is leaning far away from plumb, likely presents a safety hazard.

Brian Magoon, our plumber, gave us a quote for a new water tank and to extend our pipe further into the lake to get it away from debris. The material is \$943 and labor is \$420.

Kiki will talk to Kate about getting Kaufhold repairs and purchase for plumbing materials done before the end of the year so it will be covered by 2023 budget.

Respectfully submitted

Kiki Sangermano
