Roberts & Greene, PLLC

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen Town of Dublin Dublin, New Hampshire

Qualified and Unmodified Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Dublin, New Hampshire, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Qualified Opinion on Governmental Activities

In our opinion, except for the effects of the matter described in the Basis for Qualified and Unmodified Opinions of our report, the financial statements referred to above present fairly the financial position of the governmental activities section of the Town of Dublin as of December 31, 2022, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions on Each Major Fund and Aggregate Remaining Fund Information

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund and the aggregate remaining fund information of the Town of Dublin as of December 31, 2022, and the respective changes in financial position thereof and the budget to actual comparison for the General Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town, and to meet other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified audit opinions.

Matter Giving Rise to the Qualified Opinion on the Governmental Activities

As discussed in Note I.B.3. to the financial statements, management has not recorded certain infrastructure assets in the governmental activities and, accordingly, has not recorded depreciation expense on those assets. Accounting principles generally accepted in the United States of America require that those infrastructure assets be capitalized and depreciated, which would increase the assets, net position and expenses of the governmental activities. The amount by which this departure would affect the assets, net position, and expenses of the governmental activities has not been determined.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting
 estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, any significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter

Implementation of Accounting Standards

As discussed in Note I.B.5. to the financial statements, in the year ended December 31, 2022, the Town adopted accounting guidance as required by GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, and GASB Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United Stated of America require that the pension and OPEB related information on pages 36-40 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Town of Dublin has not presented a management's discussion and analysis. Accounting principles generally accepted in the United States of America have determined that the management's discussion and analysis is necessary to supplement, but is not required to be part of, the basic financial statements.

Town of Dublin Independent Auditor's Report

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Dublin's basic financial statements. The combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

I. Summary of Significant Accounting Principles

I.A. Introduction

The accounting and reporting framework and the more significant accounting principles and practices of the Town of Dublin (the Town) are discussed in subsequent sections of this note. The remainder of the notes is organized to provide explanations, including required disclosures, of the Town's financial activities for the fiscal year ended December 31, 2022.

I.B. Financial Reporting Entity – Basis of Presentation

I.B.1. Entity Defined

The Town of Dublin is a municipal corporation governed by a board of selectmen consisting of three members elected by the voters. These financial statements present the financial position and activity of the primary government. Component units are organizations for which the primary government is financially accountable, or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete. Based on the stated criteria, the Town's financial statements do not include any component units.

I.B.2. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the Town as a whole, excluding fiduciary activities. Individual funds are not displayed.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees, fines and forfeitures, and other charges for the Town's services, and (2) operating grants and contributions, which finance annual operating activities including restricted investment income. These revenues are subject to externally imposed restrictions to these program uses. Taxes and revenue from other sources not properly included with program revenues are reported as general revenues.

Fund Financial Statements

Fund financial statements are provided for governmental and fiduciary funds. Major individual, governmental funds are reported in separate columns with composite columns for nonmajor funds.

I.B.3. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the Town are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Town's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements, with the exception that it has not reported all of its capital assets and related depreciation, primarily its infrastructure assets.

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Reimbursements are reported as reductions to expenses. Fiduciary fund financial statements also report using this same basis of accounting, although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property tax revenue is recognized in the year for which it is levied, while grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Town considers revenues to be available if they are collected within sixty days of the end of the fiscal year. However, property taxes are not deferred on the budgetary basis, or when reporting to the State of New Hampshire in accordance with the directions of the New Hampshire Department of Revenue Administration.

Expenditures are recorded when the related fund liability is incurred, except for general obligation debt principal and interest, which are reported as expenditures in the year due. Major revenues susceptible to accrual are property taxes, intergovernmental amounts and investment income. In general, other revenues are recognized when cash is received.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as needed.

I.B.4. Fund Types and Major Funds

Governmental Funds

The Town reports the following major governmental funds:

General Fund – Reports as the primary fund of the Town. This fund is used to account for all financial resources not reported in other funds.

Expendable Trust Fund — Reports as a capital project fund, and used to account for capital reserve and other funds established by Town Meeting for future expenditures.

Permanent Fund – Used to account for the financial resources of the funds held by the Trustees of Trust Funds, from which only income, and not principal, is used for supporting Town purposes.

The Town also reports seven nonmajor governmental funds.

Fiduciary Funds

The Town reports the following fiduciary funds:

Private Purpose Trust Fund – Accounts for financial resources of the Town used only for the benefit of other entities or individuals.

Custodial Fund – Accounts for amounts held in escrow by the Town that belong to another entity. These assets are therefore not available to support the Town's own programs. The Town's custodial fund is used to account for the money held on behalf of NH #1 Rural Cellular, Incorporated.

I.B.5. Implementation of Accounting Principles

During the year, the Town adopted the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, resulting in the recognition of a long-term liability and related deferred inflows and outflows of resources; and GASB Statement No. 87, Leases, resulting in the recognition of a long-term receivable offset by a liability for deferred inflows of resources, representing revenue that will be recognized in future periods.

I.C. Assets, Liabilities, and Net Position or Fund Equity

I.C.1. Cash and Investments

The laws of the State of New Hampshire require that the Town's treasurer have custody of all monies belonging to the Town, other than those held by the trustees of trust funds and library trustees, and pay out the same only upon orders of the Board of Selectmen. The treasurer shall deposit all monies in participation units in the public deposit investment pool established pursuant to N.H. RSA 383:22 or in solvent banks in the state. Funds may be deposited in banks outside the state if such banks pledge or deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits, United States government or government agency obligations, or obligations of the State of New Hampshire in value at least equal to the amount of the deposit in each case.

Investments are stated at fair value based on quoted market prices. New Hampshire law authorizes the Town to invest in obligations of the United States government; the public deposit investment pool established pursuant to RSA 383:22; savings bank deposits; prime bankers' acceptances; or certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the state treasurer.

Any person who directly or indirectly receives any such funds or monies for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the Town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

I.C.2. Lease Receivable

The Town is required to recognize certain lease assets and liabilities that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The Town (the lessor) recognizes a lease asset for the lease the Town has with the United States Postal Service (the lessee) for use of Town owned property for the post office. Payments on the lease receivable are deferred until they are received.

I.C.3. Capital Assets and Depreciation

Generally, the Town's property, plant and equipment with useful lives of more than one year are stated at historical cost and reported in the government-wide financial statements. Donated assets are stated at acquisition value on the date donated. The Town generally

capitalizes assets with cost of \$5,000 or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

Estimated useful lives, in years, for depreciable assets are as follow:

	Years
Buildings	50-200
Machinery, vehicles and equipment	8-20
Infrastructure	25
Other improvements	8-100

I.C.4. Long-Term Debt

In the government-wide financial statements, outstanding debt is reported as liabilities. The balance of long-term debt is not reported in the governmental funds. Included in long-term debt are bonds payable, compensated absences payable, accrued landfill postclosure care costs, the net pension liability, and the OPEB liability.

I.C.5. Equity

The government-wide statement of net position reports net position in the following components:

- Net investment in capital assets, which is computed as the total capital assets less accumulated depreciation, net of outstanding debt used to acquire those assets.
- Restricted for perpetual care, which consists of permanent funds that were established
 for cemetery care. This balance is broken down between nonexpendable, representing
 the principal amounts, and expendable, representing income available to be spent.
- Restricted for other purposes, which consists of the other permanent funds for which
 the income is to be used for Town purposes; unexpended grant funds; and the library
 fund, whose use is restricted per State law.
- Unrestricted, which consists of the remaining balance of net position.

The governmental funds report fund balances in the following components:

- Nonspendable, which consists of endowments in the permanent fund, and prepaid items and tax deeded property which are not spendable in their current form.
- Restricted, which represents the expendable income in the permanent fund; unexpended grant proceeds; and the library fund, whose use is limited by State law.
- Committed, which consists of balances for which the intended use has been established by Town Meeting vote, and would normally require an equally formal action to remove those commitments. This includes the balances of the special revenue funds that are not restricted.
- Unassigned, which represents the remaining fund balance of the General Fund.

II. Stewardship, Compliance and Accountability

II.A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund. Unless encumbered, all appropriations lapse at year-end. The Town is allowed to use beginning fund balance to balance the budget. In 2022, \$28,043 of the unassigned fund balance from 2021 was so used, and \$237,550 was appropriated from fund balance.

Encumbrance accounting is employed by the governmental funds. Encumbrances outstanding at year-end are reported as assignments or commitments of fund balance and do not constitute expenditures or liabilities because they will be added to the appropriations voted in the subsequent year.

Revenues are budgeted by source. Expenditures are budgeted by functions as follow: general government, public safety, highways and streets, sanitation, health, welfare, culture and recreation, conservation, debt service, and capital outlay. Management can transfer appropriations among budget line items as necessary, but the total expenditures cannot legally exceed the total appropriations unless permission is received from the Commissioner of Revenue Administration.

II.B. Reconciliation of General Fund Budgetary Basis to GAAP

Per Exhibit 7 (budgetary basis) \$ 3,066,566 Adjustments: Basis difference: Tax revenue deferred in the prior year 213,260 Tax revenue deferred in the current year (228,444) Per Exhibit 5 (GAAP basis) \$ 3,051,382 Expenditures and other financing uses: Per Exhibit 7 (budgetary basis) \$ 2,970,917 Adjustment: Basis difference: Encumbrances, beginning 6,688 Per Exhibit 5 (GAAP basis) \$ 2,977,605
Basis difference: Tax revenue deferred in the prior year Tax revenue deferred in the current year Per Exhibit 5 (GAAP basis) Expenditures and other financing uses: Per Exhibit 7 (budgetary basis) Adjustment: Basis difference: Encumbrances, beginning 213,260 (228,444) (328,444) (228,444) (428,444)
Tax revenue deferred in the prior year Tax revenue deferred in the current year (228,444) Per Exhibit 5 (GAAP basis) Expenditures and other financing uses: Per Exhibit 7 (budgetary basis) Adjustment: Basis difference: Encumbrances, beginning 213,260 (228,444) \$\$ \$\$ 3,051,382
Tax revenue deferred in the current year Per Exhibit 5 (GAAP basis) Expenditures and other financing uses: Per Exhibit 7 (budgetary basis) Adjustment: Basis difference: Encumbrances, beginning (228,444) \$ 3,051,382

Adjustment: Basis difference: Encumbrances, beginning 6,688
Basis difference: Encumbrances, beginning 6,688
Encumbrances, beginning 6,688
Per Exhibit 5 (GAAP basis) \$ 2.977.605
<u> </u>
Unassigned fund balance:
Per Exhibit 7 (budgetary basis) \$ 1,119,398
Adjustment:
Basis difference:
Deferred tax revenue, GAAP basis (228,444)
Per Exhibit 3 (GAAP basis) \$ 890,954

The other major funds do not have annual budgets.

III. Detailed Notes on Funds and Government-Wide Statements

III.A. Assets

III.A.1. Investments

As of December 31, 2022, the Town's reporting entity had the following investments:

Certificates of Deposit	\$ 13,941
U.S. Government Agencies	158,109
U.S. Treasury Obligations	693,534
Mutual Funds	95,106
Equity Funds	759,937
Corporate Bonds	563,460
New Hampshire Public Deposit Investment Pool	18,685
	\$ 2,302,772

The investments appear in the financial statements as follow:

Eurad	roporting	lovol:
runu	reporting	ievei.

Governmental funds - balance sheet (Exhibit 3)	\$ 1,943,131
Fiduciary funds - statement of fiduciary net position (Exhibit 8)	359,641
Total	\$ 2,302,772

Fair Value Measurement

The Town categorizes its fair value investments within the fair value hierarchy established by generally accepted accounting principles. The Town has the following recurring fair value measurements as of December 31, 2022:

Level 1 Level 2			Total
-	\$ 18,685	\$	18,685
-	13,941		13,941
158,109	-		158,109
693,534	-		693,534
95,106	-		95,106
759,937	-		759,937
563,460			563,460
2,270,146	\$ 32,626	\$	2,302,772
	158,109 693,534 95,106 759,937 563,460	- \$ 18,685 - 13,941 158,109 - 693,534 - 95,106 - 759,937 - 563,460 -	- \$ 18,685 \$ 13,941

The Town classifies its investments into Level 1, which refers to investments traded in an active market; and Level 2, which refers to investments not traded in an active market but for which observable market inputs are readily available. The levels relate to valuation only and do not necessarily indicate a measure of risk.

This note continues on the following page.

Investment Risks

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. New Hampshire law limits investments to those described in Note I.C.1. The Town's investment policy does not place any further restrictions on its investment choices. The Town's credit rating quality of investments as of December 31, 2022 is as follows:

	Fair		
	Value		
Aaa	\$	874,974	
Aa		71,538	
A		161,332	
Ва		24,000	
Baa		42,588	
Not rated		240,671	
	\$	1,415,103	

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Town does not have an investment policy that addresses limiting interest rate risk. The Town's sensitivity of the fair value of the Town's investments to market interest rate fluctuations is as follows:

		Investment				
		Maturities (in years)				
	Fair	Less				
	Value	than 1 1 to 5				
US Government agencies	\$ 158,109	\$ 24,896	\$ 133,213			
US Treasury obligations	693,534	98,500	595,034			
Corporate bonds	563,460	294,861	268,599			
	\$ 1,415,103	\$ 418,257	\$ 996,846			

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the Town's investment in a single issuer. The Town does not have an investment policy that addresses concentration of credit risk. As of December 31, 2022, the Town had \$121,238 invested in the Ishares Core U.S. Aggregate Bond ETF, representing 5.26% of its total investments.

III.A.2. Receivables, Uncollectible Accounts and Deferred Inflows of Resources

Property Taxes Receivable and Property Tax Calendar

Property taxes are levied and collected by the Town on a semi-annual basis. Tax bills are due on or around July 1 and December 1, with interest of 8% per annum on all taxes not received by the due date. The first billing is an estimate only based on half of the previous year's billing. The final billing is levied based on an inventory taken in April of each year (the tax year runs

from April 1 to March 31), and is assessed after the tax rate has been calculated and set by the New Hampshire Department of Revenue Administration. A lien is executed on any unpaid property taxes in the following year and this lien takes priority over any others. Interest of 14% per annum is charged upon redemption of liened taxes. Properties not redeemed within two years of the date of the tax lien should be deeded to the Town. During the current year, the tax collector executed a lien for uncollected 2021 property taxes on May 19.

The property taxes levied and collected by the Town include amounts for the State of New Hampshire, the Contoocook Valley School District, and Cheshire County. The Town is responsible for the collection of all these taxes. During the annual tax rate setting process, the Town sets an amount for potential abatements and tax deeding, known as overlay. Overlay is raised through taxation and is reported as a reduction in tax revenue.

The net assessed valuation as of April 1, 2022, upon which the 2022 property tax levy was based was:

For the New Hampshire education tax	\$276,952,810
For all other taxes	\$280,427,310

The tax rates and amounts assessed for the year ended December 31, 2022 were as follow:

	Per \$1,000 of Assessed Valuation			
Municipal portion	\$7.25	\$ 2,034,474		
School portion:				
State of New Hampshire	\$1.20	331,462		
Local	\$13.20	3,702,223		
County portion	\$3.32	929,941		
Total property taxes assessed		\$ 6,998,100		

The following details the taxes receivable at year-end:

Property: Levy of 2022	\$ 419,752
Unredeemed (under tax lien): Levy of 2021	45,745
Levy of 2020	14,426
Less: allowance for estimated uncollectible taxes	(50,000)
Net taxes receivable	\$ 429,923

Deferred Inflows of Resources

Deferred revenue of \$297,760 consists of unavailable property taxes and tax liens of \$228,444 that were not collected within sixty days of year-end; \$8,959 of prepaid taxes to be applied to the next levy; and \$60,357 of unexpended State bridge aid. In the Governmental Activities, only the prepaid taxes and bridge aid are reported as unearned revenue.

III.A.3. Lease Receivable

The Town has a lease agreement with the United States Postal Service (lessee), whereby the Town (lessor) has granted the USPS the right to use a Town owned building and land. The lease is in five-year terms. The current lease was entered into during 2017, and expires on August 31, 2023. The Town and the USPS entered into a renewal agreement in 2021, for another five-year lease commencing on September 1, 2023, with two five year renewal options. Management believes that the USPS will continue to renew the lease, and have include the renewal options in its calculation.

The following provides a summary of lease payments to be received from the USPS during the expected duration of the lease agreement:

Year Ending								
December 31,		Principal			Int	terest		Total
2023	•	\$	18,801		\$	4,029	\$	22,830
2024			18,202			4,798		23,000
2025			17,491			5,509		23,000
2026			16,808			6,192		23,000
2027			16,152			6,848		23,000
2028-2032			77,912			47,053		124,965
2033-2037			70,227			67,236		137,463
2038	_		8,463	_		10,091		18,554
Totals	-	\$	244,056		\$ 1	51,756	 \$	395,812

The lease receivable balance of \$244,056 is offset by a deferred inflow of resources balance of \$247,736, which is amortized using the straight-line method over the remaining lease period.

III.A.4. Capital Assets

Changes in Capital Assets

The following provides a summary of changes in capital assets:

	Balance, beginning	Additions	Balance, ending
At cost:			
Not being depreciated:			
Land	\$ 2,511,800	\$ -	\$ 2,511,800
Being depreciated:			
Buildings and building improvements	226,268	120,000	346,268
Machinery, vehicles and equipment	2,424,537	47,870	2,472,407
Infrastructure	1,286,525	-	1,286,525
Other improvements	563,995	-	563,995
Total capital assets being depreciated	4,501,325	167,870	4,669,195
Total all capital assets	7,013,125	167,870	7,180,995
Less accumulated depreciation:			
Buildings and building improvements	(69,259)	(3,532)	(72,791)
Machinery, vehicles and equipment	(1,430,487)	(100,292)	(1,530,779)
Infrastructure	(102,922)	(51,461)	(154,383)
Other improvements	(214,702)	(34,810)	(249,512)
Total accumulated depreciation	(1,817,370)	(190,095)	(2,007,465)
Net book value, capital assets being depreciated	2,683,955	(22,225)	2,661,730
Net book value, all capital assets	\$ 5,195,755	\$ (22,225)	\$ 5,173,530

Depreciation Expense

Depreciation expense was charged to functions of the Town as follows:

General government	\$ 71,565
Public safety	67,208
Highways and streets	45,227
Sanitation	1,377
Culture and recreation	 4,718
Total depreciation expense	\$ 190,095

III.B. Liabilities

III.B.1. Intergovernmental Payable

The amount due to other governments at December 31, 2022 of \$1,926,867 represents the balance of the 2022-2023 district assessment due to the Contoocook Valley School District.

III.B.2. Long-Term Liabilities

Long-term liabilities currently outstanding are as follow:

					Outstanding	
	Original	Issue	Maturity	Interest	at	Current
	Amount	Date	Date	Rate %	12/31/2022	Portion
General obligation bond payable:						
Broadband	\$1,286,525	2020	2040	2.40	1,175,000	55,000
Compensated absences payable:						
Accrued vacation leave					61,907	-
Accrued landfill postclosure care costs					90,000	3,000
Net pension liability					1,102,180	-
OPEB liability					235,207	-
					\$ 2,664,294	\$ 58,000

Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year ended December 31, 2022:

	General Obligation Bond/Note Payable	Α	npensated bsences ayable	I Po	Accrued Landfill stclosure are Costs	Net Pension Liability	OPEB Liability	Total
Balance, beginning	\$ 1,309,801	\$	52,995	\$	120,000	\$ 812,507	\$ 239,358	\$ 2,534,661
Additions	-		8,912		-	289,673	-	298,585
Reductions	(134,801)		-		(30,000)		 (4,151)	(168,952)
Balance, ending	\$ 1,175,000	\$	61,907	\$	90,000	\$ 1,102,180	\$ 235,207	\$ 2,664,294

The annual debt service requirements to maturity for the bond payable are as follow:

Year Ending			
December 31,	Principal	Interest	Total
2023	\$ 55,000	\$ 22,973	\$ 77,973
2024	60,000	22,092	82,092
2025	60,000	21,133	81,133
2026	60,000	20,172	80,172
2027	60,000	19,213	79,213
2028-2032	315,000	81,164	396,164
2033-2037	340,000	50,064	390,064
2038-2040	225,000	10,800	235,800
Totals	\$ 1,175,000	\$ 247,611	\$ 1,422,611

Accrued Landfill Postclosure Care Costs

State and federal laws and regulations require the Town to perform certain maintenance and monitoring functions at the landfill site. The \$90,000 reported as accrued landfill postclosure care costs at December 31, 2022, represents an estimate of what it would cost the Town to perform all the postclosure care as of that date. Actual costs may be different due to inflation, changes in technology, or changes in regulation. The Town expects to pay for future postclosure care costs by annual appropriation.

III.C. Balances and Transfers – Payments Within the Reporting Entity

III.C.1. Receivables and Payables

Generally, outstanding balances between funds reported as "interfund receivables/payables" include outstanding charges by one fund to another for goods or services, subsidy commitments outstanding at year-end, or other miscellaneous amounts. Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is also reported as "interfund receivables/payables."

At year end, there is \$13,121 due from the Expendable Trust Fund to the General Fund which represents reimbursement of expenditures.

III.C.2. Transfers

Transfers within the reporting entity are substantially for the purposes of distributing taxes to the fund for which the appropriation was made, funding and expending capital reserve accounts, and distributing trust income to the applicable fund. The government-wide statement of activities eliminates transfers reported within the governmental activities columns.

Transfers during the year were as follow:

		Transfers In:				
		Expendable				
	General	Trust	Permanent			
	Fund	Fund	Fund	Total		
Transfers out:						
General fund	\$ -	\$ 358,760	\$ 2,550	\$ 361,310		
Expendable trust fund	192,810	-	-	192,810		
Permanent fund	4,500	370	-	4,870		
	\$ 197,310	\$ 359,130	\$ 2,550	\$ 558,990		

The amounts transferred from the General Fund represent appropriations to other funds. The amounts transferred from the Expendable Trust and Permanent Funds represent reimbursement of expenditures.

III.D.1. Restatement of Beginning Equity

The equity balances at January 1, 2022 were restated as follow:

	Gov	Govermental		General
	Ad	ctivities		Fund

IV. Other Information

IV.A. Risk Management

The Town's risk management activities are reported with governmental activities and recorded in the General Fund. During the year, the Town was a member of the NH Public Risk Management Exchange (Primex) which is organized to provide certain property and liability protection to member towns, cities and other qualified political subdivisions of New Hampshire. As a member of Primex, the Town shares in contributing to the cost of, and receiving benefits from, a self-insured pooled risk management program. The membership and coverage run from January 1 through December 31.

Contributions paid for property/liability coverage in 2022 recorded as an insurance expenditure/expense totaled \$38,528. There were no unpaid contributions due in 2022. The Town's contributions for workers' compensation coverage for the year were \$16,479. The member agreement permits Primex to make additional assessments to members should there be a deficiency in assets to meet its liabilities. At this time, Primex foresees no likelihood of any additional assessments for past years.

IV.B. Retirement Pensions

General Information about the Pension Plan

The New Hampshire Retirement System (NHRS) is a multiple-employer, cost-sharing, contributory public employee defined benefit plan qualified under section 401(a) of the Internal Revenue Code, and funded through a trust which is exempt from tax under Internal Revenue Code section 501(a). The NHRS provides service, disability, death and vested retirement benefits for employees and their beneficiaries. The New Hampshire Legislature establishes the provisions for benefits and contributions. The NHRS issues a separate financial report that is available at www.nhrs.org or by contacting the NHRS at 54 Regional Drive, Concord, NH 03301.

Both the members and the Town make contributions to the NHRS. Member rates of contribution are set by the Legislature. Employer rates are determined by the NHRS trustees based on an actuarial valuation. The rates of contribution for police officers and other employees were 11.55% and 7%, respectively, of gross earnings. The rates of contribution from the Town for police officers was 33.88% and was 14.06% for other employees. The rates are actuarially determined to generate an amount, that when combined with employee contributions, is expected to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions from the Town during the years 2020, 2021, and 2022 were \$84,444, \$96,840, and \$118,710, respectively, which were paid on a monthly basis as due.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At December 31, 2022, the Town reported a liability of \$1,102,180 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 rolled forward. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating municipalities and school districts, actuarially determined. As of June 30, 2022, the Town's proportion was 0.0192%, which was an increase of 0.0009% from its proportion measured as of June 30, 2021.

For 2022, the Town recognized pension expense of \$93,862. At year-end, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of	Deferred Inflows of
	Resources	Resources
Changes in proportion and differences between employer contributions and proportionate share of contributions	\$ 67,271	\$ 64,670
Net differences between projected and actual earnings on pension plan investments	41,771	-
Changes of assumptions	58,627	-
Differences between expected and actual experience	20,686	4,231
Town contributions subsequent to the measurement date	59,774 \$ 248,129	\$ 68,901
	7 240,123	7 00,001

The Town reported \$59,774 as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follow:

Year	
Ending	
December 31,	
2023	\$ 22,448
2024	32,475
2025	(902)
2026	 65,433
	\$ 119,454

Actuarial Assumptions

Retirement Age

The total pension liability in the June 30, 2022 actuarial valuation was determined using the actuarial valuation as of June 30, 2021 rolled forward to 2022, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method E	ntry-Age Normal
-------------------------	-----------------

Amortization Method Level Percentage-of-Payroll, Closed

Remaining Amortization Period 18 years beginning July 1, 2021 (30 years beginning July 1, 2009)
Asset Valuation Method 5-year smoothed market for funding purposes; 20% corridor

Price Inflation 2.0% per year Wage Inflation 2.75% per year

Salary Increases 5.4% per year average, including inflation

Municipal Bond Rate 3.69% per year

Investment Rate of Return 6.75%, net of pension plan investment expense, including inflation

Experience-based table of rates that are specific to the type of

eligibility condition. Based on the 2015-2019 Experience Study

Mortality Pub-2010 Healthy Retiree Mortality Tables with credibility

adjustments for each member classification and projected fully

generational mortality improvements using Scale MP-2019

Sensitivity of the Town's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 6.75%, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate.

	Current			
	1%	Discount	1%	
	Decrease	Rate	Increase	
	(5.75%)	(6.75%)	(7.75%)	
Town's proportionate share of net pension liability	\$1,478,848	\$1,102,180	\$789,016	

Other actuarial assumptions, as well as detailed information about the pension plan's fiduciary net position, is available in the separately issued NHRS report.

IV.C Other Postemployment Benefits

Plan Description

In addition to providing pension benefits, the Town provides implicit postretirement medical benefits to its retired employees and their spouses, as required by NH RSA 100-A:50, *New Hampshire Retirement System: Medical Benefits*. The pre-65 benefits are the only benefits included in this valuation. Both Group I and Group II retirees, as categorized by the New Hampshire Retirement System, qualify for this benefit. Group I employees, hired prior to 7/1/11, may retire at age 60, or once their age plus years of service equals 70. Group I employees hired after 7/1/11 may retire at age 65. Group II employees vested prior to 1/1/12 may retire at age 60, or at age 45 with 20 years of service.

Group II employees not vested prior to 1/1/12, but hired prior to 7/1/11, may retire at age 60, or upon attainment of minimum age and service requirements as follow:

Years of Creditable Service	Minimum	Minimum
as of January 1, 2012	Age	Service
At least 8 but less than 10 years	46	21
At least 6 but less than 8 years	47	22
At least 4 but less than 6 years	48	23
Less than 4 years	49	24

Group II employees hired on or after 7/1/11 may retire at age 60, or at age 52.5 with 25 years of service. Retirees contribute 100% of premiums for individual, two-person or family medical coverage. Surviving beneficiaries continue to receive access to the Town's medical coverage

after the death of the retired employee as long as they pay the required premium. As of June 30, 2021, the actuarial valuation date, there were four participants of the postretirement plan that met eligibility requirements. The plan does not issue a separate financial report.

Implicit Rate Subsidy

Same benefit options are available to retirees as active employees. Health insurance is purchased through HealthTrust. The Town is a member of the under-100 employees' pool and their rates are determined based on the experience of the entire under-100 employees' pool. The claims experience for active employees and retirees are combined to determine the final premium rate. This single premium rate is called a blended premium rate because it blends the expected claims of both active and retired participants. Retirees are generally older than the average participant in a non-Medicare plan, which means they are expected to generate higher claims than the average participant of the plan; therefore, they are receiving a subsidy even if they pay 100% of the blended premium rate because they would be paying less in premiums than their claims cost.

Medical Insurance Subsidy

The medical insurance subsidy is a payment made by NHRS to the former employer or its insurance administrator toward the cost of health insurance for a qualified retiree, his/her qualified spouse, and his/her certified dependent children who are living in the household and being cared for by the retiree. If the health insurance premium amount is less than the Medical Subsidy amount, then only the health insurance premium will be paid. If the health insurance premium amount exceeds the Medical Subsidy amount, then the retiree or other qualified person is responsible for paying any portion that the employer does not pay.

Group I benefits are based on creditable service, age and retirement date. Group II benefits are based on hire date, age and creditable service. This OPEB plan is closed to new entrants.

Total OPEB Liability

The Town's total OPEB liability of \$235,207 consists of \$174,569 for the implicit rate subsidy determined by an actuarial valuation as of January 1, 2022 and \$60,638 for the medical insurance subsidy, determined by an actuarial valuation as of June 30, 2021 with roll-forward procedures used to determine the liability as of June 30, 2022. The roll-forward of the total OPEB liability from June 30, 2021 to June 30, 2022 reflects expected service cost and interest reduced by actual benefit payments and refunds for the plan year.

TOWN OF DUBLIN, NEW HAMPSHIRE NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

Methods and Assumptions

The collective total OPEB liability was based on the following actuarial assumptions:

Implicit Rate Subsidy:

Payroll Growth 3.50% Discount Rate 3.72%

Mortality SOA RP-2014 Total Dataset Mortality with Scale MP-2020

Healthcare Cost Trend Rates 2022 8.50%

2023 7.50%

2024-2090 decreasing until reaching 4.54%

Mortality Pub-2010 General Employees Headcount-Weighted Mortality

fully generational using Scale MP-2021

The assumptions for the medical subsidy are the same used in the pension liability as described earlier in Note IV.B.

Sensitivity of Total OPEB Liability

Assumptions and methods used to determine the total OPEB liability are sensitive to changes in the discount rate and healthcare cost trend rates. The following presents the total OPEB liability calculated using the current discount rates, as well as what the total OPEB liability would be if it were calculated using a discount rate 1-percentage point lower or 1-percentage point higher:

Implicit Rate Subsidy:

	1%	Current Discount	1%
	Decrease	Rate	Increase
	(2.72%)	(3.72%)	(4.72%)
Town's total OPEB liability	\$ 186,878	\$ 174,569	\$ 163,441
Medical Insurance Subsidy:		Current	
	10/		10/
	1%	Discount	1%
	Decrease	Rate	Increase
	(5.75%)	(6.75%)	(7.75%)
Town's total OPEB liability	\$ 65,832	\$ 60,638	\$ 56,113

TOWN OF DUBLIN, NEW HAMPSHIRE NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

The following presents the total OPEB liability for the implicit rate subsidy calculated using the current healthcare cost trend rate as well as what the total OPEB liability would be if it were calculated using a healthcare cost trend rate 1-percentage point lower of 1-percentage point higher:

		Current	
		Healthcare	
		Cost	
	1%	Trend	1%
	Decrease	Rate	Increase
	(7.50%)	(8.50%)	(9.50%)
Town's total OPEB liability	\$ 160,428	\$ 174,569	\$ 190,951

OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

For the year ended December 31, 2022, the Town recognized an increase in expense of \$19,802 related to OPEB. At year-end, the Town reported deferred outflows of resources related to OPEB from the following sources:

Net differences between projected and actual earnings on OPEB plan	
investments	\$ 166
Town contributions subsequent to the measurement date	 3,886
	\$ 4,052

The Town reported \$3,886 as deferred outflows of resources related to OPEB resulting from Town contributions subsequent to the measurement date, which will be recognized as a reduction of the total OPEB liability in the following year.

Other amounts reported as deferred outflows of resources will be recognized in OPEB expense as follow:

Year		
Ending		
December 31,		
2023	\$	28
2024		7
2025		(65)
2026		196
	\$	166

TOWN OF DUBLIN, NEW HAMPSHIRE NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

IV.D Contingent Liabilities

Because the Town has received grants from the State and Federal governments, there is always a chance that these governments will audit grant expenditures/expenses and determine that some are not allowable. The Town does not believe that this will occur, and that if it does, it is believed that any amounts involved would not be material.

INDEPENDENT AUDITOR'S LETTER TO MANAGEMENT

To the Members of the Board of Selectmen Town of Dublin Dublin, New Hampshire

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Dublin as of and for the year ended December 31, 2022, in accordance with auditing standards generally accepted in the United States of America, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Capital Assets

During 2022, the Town undertook the significant project of inventorying its capital assets in order to address the adverse opinions it has received in prior audits on its governmental activities. The Town has included a portion of its capital assets and related depreciation on its Statement of Net Position and Statement of Activities in 2022, as required by GASB Statement No. 34. However, the Town has received a qualified opinion on its governmental activities as of and for the year ended December 31, 2022 because the Town has not determined the cost and related accumulated depreciation of all of its infrastructure assets, including Town owned roads and bridges. As well, some required information was not included for certain assets, such as historical cost or acquisition dates, which precluded them from being recorded properly. We recommend that the Town continue to work on researching the historical data to complete its capital asset listing. Further, we recommend annually capitalizing any road improvements by road in coordination with any capital improvement plan, which should ultimately result in the inventorying of all Town owned infrastructure.

Town of Dublin Independent Auditor's Letter to Management

This communication is intended solely for the information and use of the Board of Selectmen and others within the Town of Dublin, and is not intended to be, and should not be, used by anyone other than these specified parties.
