Town of Dublin
Recycling Committee Meeting
February 21, 2019

Present: Joe Carignan, Rick MacMillan, Tom Kennedy, Jane Holmes
Absent: Leslie Whone, Sheila Morse

Discussed Peterborough recycling center’s layout as a possible model for Dublin; specifically the compacter. It’s opening is about three feet from the ground and much easier to throw bags into. We also discussed adding electricity to the swap shop. Tom and Joe should be able to complete this as soon as the ground thaws.

Tom shared with the committee that a warrant article has been proposed that would take funds from the transfer station account and put them, as well as any future monies generated by recycling, into the general fund. This would require that any expenditures would need to be raised through taxes, rather than paid for from the transfer station’s income. The committee is very concerned about this proposal.

Meeting adjourned at 6:45.
Next meeting is scheduled for 3/21/19

Respectfully submitted,
Jane Holmes
