Dublin Lake Preservation Committee
DRAFT MINUTES
October 30, 2018

Members attending: Felicity Pool (chair), Hank Campbell, Tom Warren, John Morris

Meeting Opened at 7:00 PM.

Minutes from two previous meetings (August and September 2018) were approved with minor typographical correction.

Discussed draft letter to lake abutters regarding plowing of snow across lake road, which was brought to the attention of the DLPC by Roger Trempe. Roger had said he would write an Advocate article so we will hold this letter until later.

Discussed potential actions to take with regard to the Old Common Road stabilization effort. Felicity and Hank will meet and review concerns regarding existing usage of Old Common Road. John and Tom will contact Chris Raymond, and another contractor, for a more complete estimate of the CEI design. Felicity will ask Eugenie and Karen to think about plantings that could be used to help stop erosion in that area. The goal is to make a single recommendation, with one backup for comparison, to the selectmen and other parties (Highway Department, Cemetery Committee, Beech Hill Dublin Lake Watershed Association, Conservation Commission, etc.) and if any town funding or warrant articles are needed to get them on the 2020 town meeting. Felicity will also write an article for the Advocate early next year.

Tom has agreed to run the Lake Host program next year and will meet with Bill Goodwin.

Next meeting tentatively set for January 2019, date to be announced.

Meeting Adjourned at 7:55 PM.

Respectfully submitted, John Morris, Secretary pro tem.
